"HARNESSING THE CHANGE"

COVER STORY

PROJEXUS –
EXPERIENTIAL PROJECT-BASED LEARNING

Projexus is SADRE's flagship internship program designed to bridge the gap between academics and industry. In collaboration with **nasscom** and expert mentors, this **45–60** day experience empowers students to solve real-world problems in AI, Data Science, Cybersecurity, and more.

Students work on multiple projects aligned to National Occupational Standards and receive co-branded certification from **IT-ITeS SSC nasscom, MeitY,** and partner institutions. With milestone evaluations and NCrF-aligned credits, Projexus boosts portfolios and job readiness.

At just **₹911,** it offers a high-impact, inclusive learning opportunity for students to build future-ready careers through hands-on experience.

FINANCIAL LITERACY COLLABORATION WITH NEW LIFE ADVISORY

Discussions are currently underway with New Life Advisory to co-create a financial literacy module that will be integrated into all our STEM and Non-STEM training programs.

The full update on this exciting collaboration will be shared in our next edition—stay tuned!

MentoNest is now Powered by AI

SADRE's MentoNest initiative is now enhanced with AI-driven insights, offering a smarter and more personalized career development journey.

MentoNest Grow focuses on school students, helping them discover their strengths, explore careers, and make informed academic choices through assessments and mentoring.

MentoNest Pro is tailored for college students and early professionals, guiding them in personal branding, interview readiness, and career mapping

Together, these AI-powered offerings foster clarity, confidence, and competence—ensuring learners are better equipped to succeed in a dynamic world of work.

DIGITAL SKILLATHON 2025 - PHASE 02

Following the overwhelming success of Phase 01, SADRE is proud to announce Digital Skillathon 2025 – Phase 02 in partnership with NASSCOM. This next phase will expand the reach of digital skilling programs across rural and semiurban colleges, with a focus on inclusive access and high-impact learning.

The initiative offers three targeted courses:

- Digital Application Fundamentals – STEM
- Digital Application Fundamentals – Non-STEM
- General AI Literacy

The initiative will cover both STEM and Non-STEM learners, preparing them for future opportunities through curated content and interactive delivery formats.

With thousands already impacted in Phase 01, Phase 02 is set to take our mission further—empowering more students to thrive in the digital economy.

ACADEMIC PARTNERS MEETING – TN & KA

SADRE recently engaged with key academic partners in Chennai and Bangalore to explore collaborative opportunities across skilling, internships, and placements.

Several partners expressed strong interest in mentoring students, supporting employability modules, and co-hosting Digital Skillathon 2025. These dialogues are instrumental in bridging the academic-industry divide and accelerating career outcomes for students.

BUSINESS INTELLIGENCE PROGRAM AT UIBS, BANGALORE

We recently conducted a Business Intelligence training program for MBA students at United Business School (UIBS). Over three days, students tackled real-world case studies using analytical tools to hone their skills in data interpretation, visualization, and strategic thinking.

Faculty praised the program's hands-on structure, while students reported greater confidence in applying business analytics. The experience strengthened the link between academic theory and practical problem-solving, equipping students for data-driven roles in today's corporate world.

TANSEED GRANT – PRESENTATION UPDATE

SADRE proudly presented its innovation-driven skilling and education model to the TANSEED Grant jury, highlighting scalable initiatives like Projexus and Mentonest.

The jury commended our inclusive design and impact potential. We eagerly await final shortlist results and remain committed to accelerating our mission through this opportunity.

TANSEED 7.0

ESG INNOVATION DIALOGUE WITH ESG SENTINEL

SADRE recently met with Bala, Founder of ESG Sentinel, a company focused on building systems to measure Environmental, Social, and Governance (ESG) impact, especially in the automobile sector. This meeting, referred by our trusted partner iScalePro, sparked a productive brainstorming session on the industry's ESG demands and challenges.

As a consulting partner, SADRE is contributing insights on ESG integration and user-centric design to co-develop a practical, market-ready solution. This marks the beginning of a promising collaboration aimed at driving responsible innovation.

VOICES OF INSPIRATION

"Go for it - MentoNest"

As a seasoned professional in IT, software, databases, and data analytics, I've had the privilege of witnessing this field's evolution—from first-generation computers to today's AI-powered smartphones and supercomputers. By God's grace, my career has taken me across the globe, working at the cutting edge of technology.

I've known the founders of **SADRE** personally, and although they consider me a mentor, it's their passion and commitment to "coaching young minds for a brighter future" that truly inspires me. This is not just a profession for them—it's a mission.

I encourage you to embrace **MentoNest's** career-focused, personalized approach. Their Campus Champions Program connects you with industry leaders and like-minded peers, helping you build not just skills, but also confidence and communication. Whether it's technical expertise, people skills, or certifications, MentoNest is here to support and handhold you toward success.

Let me also urge you to welcome artificial intelligence into your learning journey. AI is reshaping our world and holds incredible opportunities for those willing to adapt and innovate. Don't miss out—go for it with MentoNest.

As you plan your future, stay curious, solve problems, seek mentors, and give back by mentoring others in return. Let that be the legacy you live and leave. Good luck, and God bless.

Mr. Richard Satyavan
Global IT Leader,
Data & Analytics Expert,
Mentor at Heart
