*"Seeds of Change"*

## Training to Transformation: Igniting Futures, Cultivating Careers

This month, SADRE is incredibly proud to share how we're actively planting seeds of change, closing the vital gap between skill development and tangible, life-changing employment.

From the vibrant landscapes of Tamil Nadu to the bustling energy of Karnataka, our strategic placement interventions are empowering India's young talent, helping them blossom from campus life into thriving, professional careers. We're not just training; we're transforming lives.

**Beyond Expectations:  
A feedback from our  
training participant**

*"Everything was truly  
captivating and engaging, not  
for a moment did I find it dull or  
uninteresting."*

## Cultivating Talent: Redisolve BPM Placements in Salem

Our partnership with Redisolve BPM reached a significant milestone this month. For their Salem operations, SADRE successfully sourced over 110 candidates from our extensive database.

Recognizing the crucial role of English comprehension and professional readiness, our team designed a custom assessment module. This module meticulously evaluated candidates' English grammar proficiency, reading comprehension, and attitudinal readiness for a professional setting.

Those who qualified then went through a targeted orientation to prepare them for the client interview, held at Redisolve's Salem location.

**Key Learning:** This process highlighted a vital insight: the need to further strengthen English skills and facilitate the mindset shift from student to young professional. This valuable learning will directly shape our upcoming training modules, ensuring we cultivate even more career-ready individuals.

## Next Harvest: Redisolve Hiring Drive – Chennai!

Following our successful Salem initiative, SADRE is excited to announce a massive hiring drive with Redisolve BPM for 500+ fresher openings in Chennai! This is a prime opportunity for young graduates and undergraduates eager to build a career in E-commerce Customer Support. We're actively preparing candidates who are strong in English, adaptable, and driven by growth.

At SADRE, we are actively scouting and preparing candidates for this exciting role through tailored assessments and orientation sessions, ensuring they are job-ready and professionally groomed.

👉 We Need Your Support! As a well-wisher and supporter of SADRE's mission, we humbly request you to refer students or freshers who are looking for opportunities to launch their careers in a fast-growing industry.

Let's come together to shape the careers of tomorrow—One Hire at a Time, planting seeds of opportunity that will grow into fulfilling careers.

# Nurturing Growth: Rural to Urban Career Readiness in Nelamangala

We were honored to conduct an Interview Skills Orientation for final-year students at Hoysala Degree College in Nelamangala, Karnataka. These students, predominantly from rural backgrounds, are preparing to make a significant leap into urban employment ecosystems. Our one-day preparation session focused on:

- **Resume presentation: Helping students craft impactful first impressions.**
- **Interview etiquette: Equipping them with the confidence to navigate professional interactions.**
- **Job role awareness: Providing clarity on various career paths.**
- **Self-discovery: Guiding them to identify their strengths ("What am I good at?") and passions ("What do I enjoy doing?").**

Following the orientation, we organized a Mini Job Drive with participation from leading companies like Lithium Technologies (India's largest electric mobility service provider) and various BPM companies eager to hire fresh graduates.

**The Future 5000 Mission**

*Shaping Tomorrow, One Hire at a Time*

## 5,000 FRESHERS ONE DREAM

- ✓ They are trained
- ✓ They are Job Ready
- ✓ From all Disciplines
- ✓ Ready to learn & Adapt

**All they need  
now is**

**A CHANCE**

**CALLING ALL HIRING LEADERS-  
You Can Make the Difference**

## The Future 5000 Mission: Cultivating Career Opportunities

SADRE is thrilled to announce "The Future 5000 Mission," our powerful initiative to create over 5,000 job opportunities for freshers. We're actively engaging with HR leaders and decision-makers, connecting them with our rigorously trained, job-ready candidates.

This mission represents a shift from just training to building employer-ready talent pipelines through strategic industry collaboration, ensuring our seeds of talent find fertile ground.

## Internships: Growing Future Innovators

We are also delighted to share that 12 more students from UIBS College, specifically from the Computer Science department, successfully completed their internships with us.

These bright minds played a crucial role in building a chatbot to support school students in learning current affairs and accessing live data, demonstrating the direct impact of hands-on experience in cultivating future innovators.

## Expanding Our Network: Don Bosco College Partnership

This month, SADRE initiated discussions with Mr. Eric Richman, Placement Director, and Ms. Immaculate Joyce, Placement Officer, at Don Bosco College, KR Puram, Bangalore, to explore an exciting new partnership. We're eager to collaborate and create more opportunities for their students.

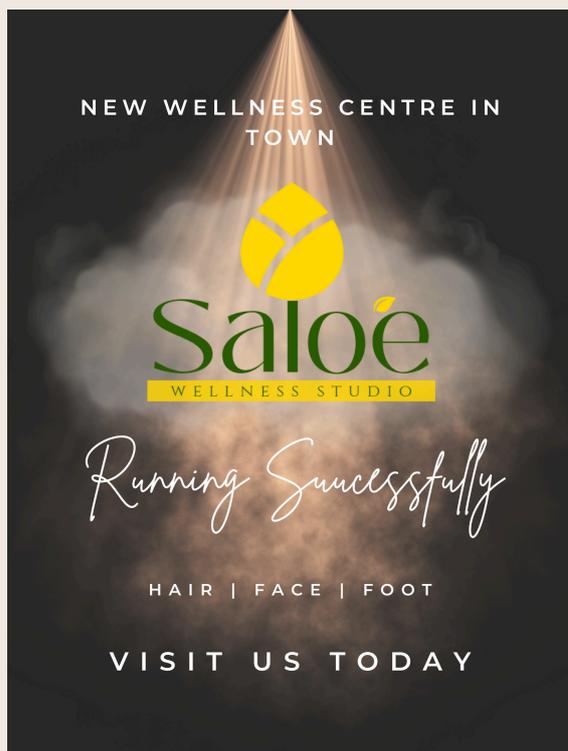

## Cultivating Local Talent: Krishnagiri Skilling Initiative

Following the signing of the MoU with the Krishnagiri District Collectorate, this project has made significant strides in planting local seeds of progress.

We've received a robust database of 20,000 students spanning ITIs, Diploma colleges, Arts & Science institutions, and Engineering graduates, shared by the Additional Director for Skills.

In parallel, we are actively engaging with local industrial associations to understand precise workforce requirements and explore CSR collaboration for sustainable project support.

Our core objective is to meticulously align training interventions with actual job market needs, enabling us to bridge critical skill gaps and prepare these students throughout the year for industry-relevant employment opportunities within the district itself.

## Expanding Our Impact: A Digital Transformation for SALOE!

This month, SADRE proudly showcases our expertise beyond training and placements, by successfully completing the website and digital media collaterals for one of our valued clients, SALOE, a premier beauty and wellness center. We're thrilled to have helped them establish a stunning online presence that truly reflects their commitment to rejuvenation and well-being.

Ready to experience exceptional beauty and wellness services? We invite our community to explore SALOE's offerings and experience the magic they create.

## Voices of Inspiration

Sadre has been more than just a stepping stone—it has been the foundation of my transformation as a social worker. It nurtured my passion into purpose, offering a powerful blend of knowledge, hands-on experience, and strategic mentorship.

Through its empowering ecosystem, I gained the confidence to design and lead impactful initiatives that address real community needs. Sadre didn't just open doors; it taught me how to build them for others.

Today, I stand as a more informed, compassionate, and action-driven changemaker—ready to create lasting impact, thanks to Sadre's unwavering belief in my potential

Shoulders Foundation**

## As we Conclude...

At SADRE, our mission is more than just skilling—it's about creating sustainable career pathways and nurturing seeds of potential into successful realities. The inspiring stories from Salem, Nelamangala, and our ambitious "Future 5000 Mission" truly showcase the transformative power of intentional intervention and purposeful partnerships.

Stay tuned for next month's edition, where we will explore exciting employer partnerships and evolving hiring trends in Tier II and III locations, continuing to highlight how we are cultivating a brighter future, one career at a time.
